Let me tell you a few things about me...

Hello my name is Florin Zarafu an entusiasthic web developer. In 2018 I've discovered the beautiful world of web development and since then every day I've learned new things perfecting my skills I've started with HTML and CSS adding JavaScript, after I get used working with this I've started to learn Boostrap and Sass. At the begining of 2019 I've started learning React.Currently I learn React, PHP, MySql, Laravel.

Skills

FRONT END TECHNOLOGIES

HTML, CSS, SASS

BOOTSTRAP

JAVASCRIPT

BACK END TECHONOLOGIES

PHP

MYSQL

LARAVEL

Education

Universitatea din Craiova 2014 - present

Section Computer Science

In 2014 I've started to learn Computer Science at Craiova University, I didn't finished my last year due to some familly problems. I plan to get my bachelor degree next summer. Even if i didn't finish it in those two and a half years I've got an understanding of programing concepts like OOP, Data Structures.

Experience

Web Developer

From 2018 I've started working with HTML5 and CSS3 building my first web pages, since then I've learned something new every day and I will continue to keep learning.
